## Consumption Log

Electricity
This worksheet is a place for you to track electrical consumption and costs for your Extension office and grounds. Entering the data in the "yellow" cells will allow you to see how much electricity your office has used to date, along with the costs, and any changes that result from putting conservation plans into action. Hopefully your personnel and volunteers will find conservation saves money as well as reducing the office's ecological footprint. If you are able, track your usage for an entire year. If you don't have data from the previous year, contact your utility company and ask for your previous year's monthly office records, both consumption and cost.

Electricity

| Month | Kilowatt- hours <br> (2013) | Kilowatt- hours <br> (2014) | Percent <br> Change | Average Daily <br> Usage (2013) | Average Daily <br> Usage (2014) | Notes |

## Consumption Log

## Natural Gas

This worksheet is a place for you to track natural gas consumption and costs for your Extension office and grounds. Entering the data in the "yellow" cells will allow you to see how much natural gas your office has used to date, along with the costs, and any changes that result from putting conservation plans into action. Hopefully your personnel and volunteers will find conservation saves money as well as reducing the office's ecological footprint. If you are able, track your usage for an entire year. If you don't have data from the previous year, contact your utility company and ask for your previous year's monthly office records, both consumption and cost.

## Natural Gas

## Vehicle Log(s)

## Transportation

This worksheet is a place for you to track a vehicle's monthly mileage, cost per mile of operation and total cost per year within your Extension office. Note that five identical worksheets are supplied so that you can track up to five different vehicles.
First enter monthly miles traveled, monthly fuel cost and monthly maintenance costs in the corresponding "yellow" cells. (Note that the Gallons per Month columns are optional as we understand that sometimes this data is unavailable to you. Therefore, this information is not used in these calculations but may help you visualize fuel comsumption if you do have access to the data.) The spreadsheet will allow you to track your progress and see changes as a result of putting conservation plans into action. Hopefully your personnel will find conservation saves money as well as reducing the office's ecological footprint. If you are able, track your usage and costs for an entire year. If you don't have your data from the previous year, contact your office manager and ask for your office records, both monthly miles traveled and costs.

## Transportation

This worksheet is a place for you to track a vehicle's monthly mileage, cost per mile of operation and total cost per year within your Extension office. Note that five identical worksheets are supplied so that you can track up to five different vehicles.
First enter monthly miles traveled, monthly fuel cost and monthly maintenance costs in the corresponding "yellow" cells. (Note that the Gallons per Month columns are optional as we understand that sometimes this data is unavailable to you. Therefore, this information is not used in these calculations but may help you visualize fuel comsumption if you do have access to the data.) The spreadsheet will allow you to track your progress and see changes as a result of putting conservation plans into action. Hopefully your personnel will find conservation saves money as well as reducing the office's ecological footprint. If you are able, track your usage and costs for an entire year. If you don't have your data from the previous year, contact your office manager and ask for your office records, both monthly miles traveled and costs.

## Vehicle 5

| Month | Miles Traveled per Month (2013) | Miles Traveled per Month (2014) | Percent Change | Gallons per Month (2013) | Gallons per Month (2014) | Maintenance Costs per Month (2013) | Maintenance Costs per Month (2014) | Notes |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| January | 500 | 1000 | 100\% More |  |  |  |  |  |
| February |  |  |  |  |  |  |  |  |
| March |  |  |  |  |  |  |  |  |
| April |  |  |  |  |  |  |  |  |
| May |  |  |  |  |  |  |  |  |
| June |  |  |  |  |  |  |  |  |
| July |  |  |  |  |  |  |  |  |
| August |  |  |  |  |  |  |  |  |
| September |  |  |  |  |  |  |  |  |
| October |  |  |  |  |  |  |  |  |
| November |  |  |  |  |  |  |  |  |
| December |  |  |  |  |  |  |  |  |
| Total | $500 \mathrm{mi} / \mathrm{yr}$ | 1,000 mi/yr | 100\% More |  |  |  |  |  |

| Month | Fuel Cost per Month (2013) | Fuel Cost per Month (2014) | Percent Change | $\begin{aligned} & \text { Total Cost per Mile } \\ & (2013) \end{aligned}$ | Total Cost per Mile (2014) | Total Cost per Month (2013) | Total Cost per Month (2014) | Notes |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| January | \$100.00 | \$75.00 | 25\% Less | \$0.20 | \$0.08 | \$100.00 | \$75.00 |  |
| February |  |  |  | \#DIV/0! | \#DIV/0! | \$0.00 | \$0.00 |  |
| March |  |  |  | \#DIV/0! | \#DIV/0! | \$0.00 | \$0.00 |  |
| April |  |  |  | \#DIV/0! | \#DIV/0! | \$0.00 | \$0.00 |  |
| May |  |  |  | \#DIV/0! | \#DIV/0! | \$0.00 | \$0.00 |  |
| June |  |  |  | \#DIV/0! | \#DIV/0! | \$0.00 | \$0.00 |  |
| July |  |  |  | \#DIV/0! | \#DIV/0! | \$0.00 | \$0.00 |  |
| August |  |  |  | \#DIV/0! | \#DIV/0! | \$0.00 | \$0.00 |  |
| September |  |  |  | \#DIV/0! | \#DIV/0! | \$0.00 | \$0.00 |  |
| October |  |  |  | \#DIV/0! | \#DIV/0! | \$0.00 | \$0.00 |  |
| November |  |  |  | \#DIV/0! | \#DIV/0! | \$0.00 | \$0.00 |  |
| December |  |  |  | \#DIV/0! | \#DIV/O! | \$0.00 | \$0.00 |  |
| Total | \$100.00/yr | \$75.00/yr | 25\% Less | \#DIV/0! | \#DIV/0! | \$100.00/yr | \$75.00/yr |  |
